

Projector housing XL

002.3040 EOL | Projector housing XL, inner size 600x530x200mm (excl. projector specific bracket)

Our housings can accommodate almost any projector, offering you protection from theft and damage. Our housings should be fitted with a projector specific bracket, offering you the usual flexibility in orientation. Because of the smart design, the housings are compatible with projectors where the lens is positioned on the left, middle or right side. Our housings can be installed easily, and allow quick access to the projector for maintenance (only the lock set and lower box has to be removed).

**This product is "End of Life" and will no longer be produced.
It can be supplied as long as stock lasts.**
