

Universal lift mount

052.5080 Universal lift mount with rotation function: max. 800 x 600 mm, 100kg

SmartMetals was often asked whether our rotation mount for our regular floor stands, couldn't be adjusted so that it could also fit our lift systems.

Thanks to a small adjustment to the lift its bracket and the backplate of the rotation mount, we can now offer a universal lift mount with rotation for our lift systems. This so that a monitor can be used in landscape and portrait position, and besides that easily be changed position to move the unit, into narrow elevators.

Universal lift mount

Features

Weight: 12.00 kg

Colour: Black

Maximum load: 100 kg

Screen position: Landscape, Portrait

Type bracket/interface: Universal

Rotation: 90°

Range bracket/interface: Max. 800 x 600 mm

Other information: Let us check the combination monitor and chosen floor lift in terms of measurements. This, so that bezel does not touch the wheel frame when rotating.
