

Business & VC stand

062.2871 EOL | Business & VC stand with electric height adjustment, max. 86 inch, 100 kg

Besides our standard trolleys with and without height adjustment, used mostly in education, we have made available a range of freestanding and movable solutions for the use of (touch-)flat panels and VideoConference in the business market. These stands & trolleys have a luxurious look and feel and offer the space to easily place your peripheral equipment out of sight in the enclosure. Available are several accessories to build-in such equipment and for a VideoConference camera or a soundbar are easy to mount adapters available.

De 062.2871 is a freestanding solution and offers an electrically adjustable highest position for monitors between 55 - 86 inch with a maximum weight of 100 kg. The monitors centre can be freely determined from 908 - 1568 mm from the floor; making the trolley ideal for use in meeting rooms and (compact) boardrooms. In case a fixed position of the monitor is preferred, one could opt for the 062.2861 or one of the other trolleys. Of course the SmartMetals team is there to help with advise and making the proper choice for your installations.

**This product is "End of Life" and will no longer be produced.
It can be supplied as long as stock lasts.**
