

VideoConferencing floor-ceiling column

063.4545.01 EOL | Installation Series | Black floor-ceiling column for 2x 46-55 inch

The Installation Series is all about flat panel mounting with maximum user-friendliness. All stands and trolleys standard come with a Panel Integrator. With this you may integrate up to four standard size power sockets, audiovisual control panels, USB ports or power outlets into the Installation Series column at the desired height. Do you need more connections within easy reach? No problem, just add an additional panel integrator which is available as an accessory as well.

Cables are hidden within the column's dedicated cable compartment. This is covered with a cover strip allowing easy access and establishing a neat and tidy finish.

The Installation Series offers a solution for every room thanks to the wide variety of installation options: freestanding, on wheels, fixed to floor / wall / ceiling and in a videoconferencing set-up.

The mounting head can easily be slid up and down the column and securely fixated in the desired position. Making integration for any person, small or tall, easy as the monitor can be adjusted to accommodate the best personal working height.

This floor-wall solution is a complete VideoConference solution and comes with mounting arms and two supports.

Benefits at a glance:

All connection within easy reach

Invisible cabling

A solution for every room

Adjustable working height

Fits any screen

Easy installation

This product is "End of Life" and will no longer be produced.

It can be supplied as long as stock lasts.
