

TouchTable

132.1000 EOL | TouchTable for flat panels max. 90 kg (excl. screen mount)

The flat screen totem is especially suitable for information purposes like in large shopping malls or at airports and train stations. We also experience the solutions being implemented in for example supermarkets, where Digital Signage solutions are used for commercial use and as mean to influence the purchasing behaviour of the consumer. The column has a fixed height. In the column space is reserved for positioning a PC or mediaplayer; which is easily accessible via a door on the back side. This makes the inside easily reachable for service or maintenance. The screen size, VESA and weight determines the universal screen mount to add.

**This product is "End of Life" and will no longer be produced.
It can be supplied as long as stock lasts.**

TouchTable
